

EXTENDED cDNAs FOR SECRETED PROTEINS**Abstract of the Disclosure**

The sequences of extended cDNAs encoding secreted proteins are disclosed. The extended
5 cDNAs can be used to express secreted proteins or portions thereof or to obtain antibodies capable
of specifically binding to the secreted proteins. The extended cDNAs may also be used in
diagnostic, forensic, gene therapy, and chromosome mapping procedures. The extended cDNAs
may also be used to design expression vectors and secretion vectors.
